Rules concerning Husbandry.

Vhen you would plant or graft, where the wind bloweth; if it be a South, it is very good for that purpose, but if it be the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these Signs Taurus or Aquarius in the beginning of the Spring, or latter end of Winter.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plash hedges and lop trees for fuel, that they may the sooner grow again, when the Moon is in Libra, and in her increase.

Sow young quick-setts, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in the months, September, November, February.

Sow vines in February, March, or September, when the Moon is in Aries, Libra, Scorpio, in her increase.

Sow Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, full of the Moon, in the afternoon, the weather being fair and dry.

Cut down hay presently after the full of the Moon, to prevent the growing of weeds, the Moon decreasing.

Sow Carrot-seeds about the end of February, or beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, in the wane of the Moon.

Sow Cucumbers and Melons in February, or June, in a hot and a fair day.
